Detection Process

Detection Process

Amon Benson | Sensor and Actuator Systems | Adapter for Expression Pedals | Milestone Meeting 2 | 27. September 2026

Outlook

- Hardware
 - schematic design
 - build a working prototype (single channel)
 - PCB layout and routing
 - manufacturing
- Firmware
 - simulation of ADC measurements for (functional) testing
 - implementation and refinement of the detection algorithm
 - implementation of the detection algorithm using the microcontroller toolchain

Testing and Evaluation Plan

- power supply quality
- SPI signal quality
- functional self-test
 - SPI device inquiry (ADC)
 - tristate buffer
- detection algorithm for known static networks
- accuracy and linearity
- end-to-end latency
